Perspectives surveys the World Christian Movement from four points of view:

Biblical

God has a lot to say in His Word about mission. In fact, it is central to His plan for the world. The Biblical section traces the development in scripture of His master plan.

Historical

Examines the progress and continuity of the Christian movement in world history. In this section you'll become excited as you look at how God has used His servants through the centuries.

Cultural

This section will make you vitally aware of the difficulties and opportunities the gospel and its messengers face as different peoples and cultures are presented with, and respond to the message of Jesus.

Strategic

This section looks at how the Church, and you as part of the Church, may more effectively fulfil Christ's commission.

*"Consequently, faith comes
from hearing the message and
the message is heard through
the word of Christ."
Romans 10:17*
